RE: Container demurrage & chassis charges due to lack of equipment availability (Update 09.29.16)

Hanjin Equipment Management personnel have provided an update today stating they expect to share information by the end of this week about a Hanjin designated storage location for empty equipment relative to the Ports of Los Angeles and Long Beach. No further details were provided at this time.

As specific information is available to share, we will update accordingly.

Thank you,
RPM Harbor Services, Inc.
