**Service Bulletin – RPM Transportation, Inc.  
Interrupted Service - Central California Coastal Region – UPDATE 1-15-18**

Updated information from the California DOT indicates the road closures are still in effect and there is no defined time of when these roads will reopen. Recovery efforts for those who lost their lives is ongoing. Mudslides, debris flow and considerable damage to road and bridge infrastructure will make the effort to reopen these roads a long process. We will continue to monitor and update as new information is available.

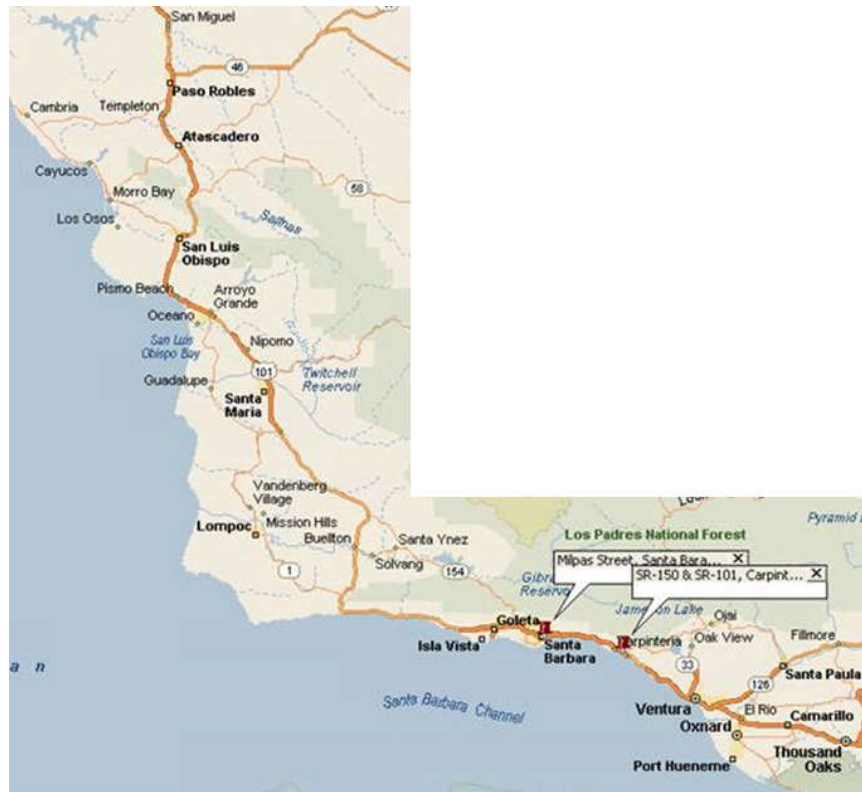

We are currently reviewing all options of how and if we will be able to provide service to the affected areas and more information will be released on that as these decisions are made. Until that time, RPM Transportation is not servicing the affected areas. Product previously tendered is available for return or pick up.

Caltrans updates for Highway 101 can be found at <http://www.dot.ca.gov/hq/roadinfo/display.php?page=us101>

Shipments tendered to RPM Transportation to service points north of Carpinteria for all cities along the 101 up to and including Paso Robles have been held at this time and will not be delivered until such time as the 101 is accessible. Although there is limited access from the north through SR-46 for emergency equipment and commuter services, RPM Transportation will not be delivering via that route.

Some of the larger known cities in this region being interrupted are:
